

Minutes Meeting 15

Wouter Van Rossem

February 21, 2010

1 Meeting Information

Date: Monday, February 15, 2010

Time: 18H00–19H00

Place: D.3.13

1.1 Attendees

Following members were present:

- Nick De Cooman
- Sina Khakbaz Heshmati
- Bart Maes
- Jorne Laton
- Wouter Van Rossem

Following members were absent:

- Jonathan Jeurissen
- Patrick Provinciael

2 Where do we stand?

This is where each member stands:

Nick understands the basics. He feels that he understands most of the part that is important to him, authentication

Sina feels he has a good knowledge about the framework

Jorne is still learning the framework and trying out the examples

Wouter also understands the basics and the parts about retrieval

Bart has a good knowledge about Seam, but hasn't done anything yet for his part

3 What went wrong?

These are some of the problems that the team encountered:

- It was unclear how we had to start and what we needed to do exactly
- There was a lack of knowledge of the framework
- The framework has a high entry level
- The time period for the implementation phase wasn't optimal because of exams
- Some problems to get a working environment

4 Solutions

In order to be certain that everyone has a working environment and to get everyone started, a workshop will be organized wednesday at 9 am. Every two weeks there will be a workshop, where the members can work together on the project.

Sina will also put deadlines on the task, in order to get faster results and reduce our backlog.

5 Revision History

Rev.	Date	Description
1.0	February 21, 2010	First draft created

6 Next Meeting

Date: Monday, February 22, 2010
