- Patrick Provinciael

- Wouter Van Rossem

- Sina Khakbaz Heshmati

1.2 Revision History

Rev.	Date	Description
1.0	March 21, 2010	First draft created

2 Introduction

In this meeting we brainstormed about the structure and the content of our presentation for the second conference.

3 Structure and content

This section describes how we will divide the 30 minutes we get during the conference.

Sina (5 min) : Will give his vision as implementation manager. He will talk about what we have accomplished in the previous weeks and what we want to have completed at end of the first implementation phase. The design of the website will also be discussed by him: how we currently have no design, but will do this at the end. Sina will prepare some slides for his part of the presentation.

Bart + Wouter (15 min) : Will give a demo of the current functionalities of the website. Some notable parts that should be included in the demo are:

- Searching
- Creating and viewing an auction
- Creating a user and viewing the user dashboard
- Internationalization

Nick (10 min) : Will talk about:

- Timesheets
- Planning
- Evaluation of previous semester

He will also discuss why our previous implementation failed and the measures we took to resolve this (e.g. workshops). A Gantt chart that shows the progress of the requirements will also be presented by him.

4 Risk management

In order to give a fluent demo of our project, we discussed some risks and their solutions.

- We can't connect to our database because we there is no internet connection available during the demo.
  Solution: The machine on which we will run the demo, will have a local database

- Unexpected errors during the demo
  Solution: A new stable branch will be created on 28/03

5 Documents

It was decided that the documents will be brought to their next versions during the Easter holiday.

6 Agenda

A complete list of Agenda items is available on [1].
